### 1. High Quality Magic Flat Mop Bucket

With 100% new PP material, the flat mop bucket is with high quality. To make better quality, our mop buckets are all with thick walls.

### 2. Flat Mop Handle

Flat mop is made of ABS and #201 stainless steel. Very thin design so that you can use it to clean blind pots in your house. The flat mop handle with PVC material for better hand feeling.

### 3. Clean and Dirty Water Seperate

With a shelter system like a fence to prevent dust or hair going back to the washing mop bucket when drying the mop head.

### 4. With Water Outlet

With water outlet, it's no need to carry and pour the heavy water mop bucket anymore.
